

Double Depth Bunded Shelving

Product Code: BA682

The Bunds Australia Double Depth Bunded Shelving unit provides a compact and neat storage solution for up to 18 x 20L drums, while providing easy access and visibility at all times.

These shelving units have been designed to help organise and tidy workshops of all sizes by providing compact and safe storage.

The shelves are constructed from perforated poly, which prevents the pooling of spilt liquid on the shelf.

A heavy duty and compliant solution.
