

Thermal Bubble Aluminium IBC Cover

Product Specifications

Code: MAX-TCBB01

The MAXBund Thermal Bubble Aluminium IBC Cover provides effective insulation and protection for 1000L Intermediate Bulk Containers (IBCs). Designed to minimise heat loss and shield contents from temperature fluctuations, this lightweight yet durable cover is ideal for maintaining stable conditions during storage and transport.

The bubble wrap insulation enhances thermal efficiency, while the reflective outer layer helps deflect UV rays, making it suitable for both indoor and outdoor use.

Key Features and Benefits

- » **Lightweight & Flexible** – Easy to handle, install, and remove for convenient use.
- » **UV & Weather Protection** – Shields contents from sun exposure, rain, and environmental elements.
- » **Durable Bubble Wrap Insulation** – Provides efficient thermal protection while remaining lightweight.
- » **Cost-Effective Solution** – Helps reduce heating and cooling expenses for stored liquids.

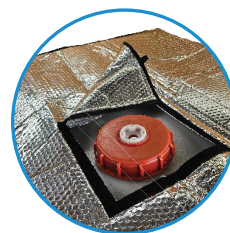

Specifications

Product Code	MAX-TCBB01
Size	1200mm x 1000mm x 1160mm (standard 1000L IBC)
Material	Double-sided metalized aluminium with single layer bubble insulation
Access Flaps	Top Flap – Allows access to the IBC lid Front Flap – Provides easy access to the outlet valve
Usage	Suitable for both indoor and outdoor applications
Recommended Max Temperature	60°C

Front Flap

Top Flap
